SENIOR WEB DESIGNER

SKILLS & REQUIREMENTS:

- Portfolio review required
- Extensive knowledge of Photoshop, XHTML and CSS
- Strong communication skills, interpersonal skills, and a positive and playful attitude required
- Ability to stay on the ball while handling multiple projects
- An understanding of current creative trends
- Consistent ability to understand and execute requirements
- Interest in usable, effective, and elegant information architecture
- A daring design sensibility

PRIMARY RESPONSIBILITIES:

Working in close partnership with the Design Director and the rest of the creative team you will take an active role in the creative output of the studio.

The role requires excellent written communication skills. You will be confident in articulating your ideas and creative rationale to colleagues through ICQ or email, since this offer is a remote position. Meaning you will be working from home with an "online team".

With a strong knowledge of graphic design and typography you'll be passionate about user experience, narrative and interactivity. A leading appreciation of the current trends, programs and techniques involved in the production of award winning digital work is essential.

You'll currently have at least 3 years experience in conceptualizing and designing beautiful and engaging digital media.
